Bard Professors Receive Awards

Two members of the Bard Col-The program will begin with United States, and Paul Nordoff, professor of music has been awarded a Faculty fellowship from the Fund for the Advance-

Works on Biography

Dr. Hirsch, who is sailing for Germany this week and will lecschule Karlsruhe and other German academic institutions, received his grant toward the conclusion of his extended studies on Dr. Gustav Stresemann, German foreign minister in the 1920's and Nobel Peace Prize winner. He is preparing a Stresemann biography for the Columbia University Press.

Prof. Nordoff plans to use his leave for the writing of a harmony textbook, with a new approach, which he developed in his teaching at Bard College and which attracted even non-music majors to take a course in harsummer in England; he plans to time. The oldest members will spend most of the next academic year, however, at his home in Spring Valley. Only occasionally with his colleagues there.

Pulitzer Prize Winner

Paul Nordoff holds bachelor's and master's degrees in music trom the Philadelphia Conservatory of Music, as whose head of He studied also at Juilliard School and taught at Michigan State College prior to joining the 1940. Many of his compositions have been performed at leading institutions of the United States.

Staking Plants All-Season Job

Staking garden plants is far from a one-time job. It must go on all through the rest of the growing season to take care of those that from now on are getting ready for their flower display. Some will be perfectly safe with pencil-thick bamboo stakes, but others need heavier ones to hold them up.

If the supports are placed soon after a prolonged soft rain they the ground deep enough to become firmly anchored. Pushing them in just slightly is most deceiving. While they may appear firmly settled, they will give little support when the earth is soaking

Green string or twine will be satisfactory, but still stronger and much easier to use is the papercovered wire especially made for tying plants.

Plywood for Fences

Plywood is adaptable to a variety of fencing styles.

SLANT ON SNACKS

If anyone tells you that you are suffering from spontaneous hypoglycemia, don't rush for a doctor. Like some other learnedsounding terms, this has a very simple meaning. It is the empty feeling in the pit of the stomach which all have experienced, and for which the accepted remedy is a bite to eat.

Between meals, however, you should choose what particular form of cure you should seek to end this condition. Dr. Jerome W. Conn of the University of Michigan Medical School says that a candy bar or take. It would be much better to drink a follows: glass of milk, or nibble on meat, eggs or cheese. This is because these are proteins which counteract the excess of insulin in the body that this empty feeling indicates. Candy would increase the flow of insulin. In other words, when hungry, reach for a small | the body and leaves it at death—from this time, sandwich instead of a sweet. The accent is on the small-one cracker or bit of bread with meat or cheese. Skim milk is fine with it.

CANAL STILL GOING

America's one canal which has been a continual success has opened its 129th season. This is the old Erie Canal, which because of enlargement and a slight change of route is now the major link in the New York State Barge Canal System, including canals to Oswego and Lake Champlain. Reconstructed in 1918, it is 352 miles long, and by its 35 locks raises shipping 565 feet up from the Hudson River to Lake Erie. Last year it carried about 4,500,000 tons of cargo and has done more business in recent years than in the old days.

Canals were often built in the first part of the 19th century. The railroads killed them off, and few survive outside of the Erie. This runs contrary to European experience. There France, Germany and especially Russia have dug many within recent years, and find them useful.

Perhaps we value speed more than other nations do, and perhaps more than it is worth.

"I dislike telephone calls," said the cynic. "They are always from people who want me to do something for them, and never from people who want to do something for me."

THE KEY WORD

A business leader said this the other day: "We need more frank and basic discussion in defense of private capitalism, not in terms of bath tubs and washing machines, but in terms of sound fundamentals." If that can be achieved on a big enough scale, he continued, civic meetings and social gatherings "no longer would be ready-made platforms for the promulgation of ideas and theories alien to human liberty."

The material fruits of the capitalist system -the bath tubs and washing machines and everything else-are enormously important. They mean that our living standards are the envy of the world. But those fruits are the result of something still more important, which can be described in the single word freedom. The implications of that word need discussion and understanding.

The Russians have been celebrating the 300th anniversary of the annexation of Ukrainia to Russia. Ukrainia, along the Black Sea in Southern Russia, has a wonderfully fertile soil. Its population, originally Cossack, speaks a language similar to Russian but not identical. It has not taken kindly to Russian rule, and in the event of war might welcome invaders.

ONLY CURE

"We could both cure the budget deficit and many of the pains of taxes without lessening functions of government if we could now have a period of self-denial and patience."

That observation has come from a real authority, Herbert Hoover, in a talk made before the American Society of Newspaper | ing those which hit us directly in our own Editors. The American people never were pocketbooks.

DEMINFORM

Senator Jackson, who on television looks like the eternal collegian, young, fresh, buoyant, had a wonderful time with himself making fun of David Schine's plan for psychological warfare. I have seen dozens such plans, drawn up by so-called

Senator Jackson is not so dumb as not to understand that the word, "Deminform," however crude it may be etymologically, has the virtue of conveying a specific idea, namely, that as the Communists have established an information and propaganda section called the Cominform, so the so-called democracies should establish a similar

fighting organization called Deminform. Jackson could not have failed to understand that but the Senators have all become accustomed to using their short stay on television to ham up their act to catch a laugh. My reaction to the Jackson foray is that the word, "Deminform;" is objectionable because there is not a democracy on the face of the Earth, and because the United States is not a democracy at all, but a representative republic which sometimes suffers from a careless choice of representatives. If as Schine wrote "fight fire with fire," then the materialism of Marxism can only be fought by the spiritual-

ity of religion Schine mentioned that in his memorandum and Jackson put on his innocent look, which tells me that he is about to be mischievous, and asked just whether Schine means that the religious groups

were to be infiltrated? I would not use the word, infiltrated, but the word, educated. The religious groups of the world are as shocked and surprised by the stupendous success of the Marxist Church as President Eisenhower was at his press conference last Thursday. Many of the clergy have regarded Communism as wild-eyed something or other, but they have failed to recognize the emergence of the Marxist Church which now controls the lives of 800,000,000 human beings. It is a materialistic, atheistic, pragmatic church which is fighting Judaism, Christianity and Islam, as it must, because they represent the concept of a mystical God who revealed the Natural Law to man. By this revelation, man was given a moral system upon which he has based his entire life. To the Marxist, such a system is unscientific and therefore untrue.

I would recommend to Senator Jackson Marx's essays on Feuerbach which are part of the canon of the Marxist Church. Feuerbach (1804-1872) a soft drink is definitely the wrong thing to was a German materialistic philosopher who profoundly influenced Marx. Marx states his case as

> The great basic question of all philosophy. especially of modern philosophy, is that concerning the relation of thinking and being. From the very times when men, still completely ignorant of the structure of their own bodies, under the stimulus of dream apparitions came to believe that their bodies, but of a distinct soul which inhabits Vermont raised a fine point in Getting down to more modern tor is appointed to a committee, children, Linda Brooks, June 12, June 10, Miss Doris Stevens, June men have been driven to reflect about the relation between his soul and the outside world. If in death it took leave of the body and lived on, there was no occasion to invent yet another distinct death himself of charge for it. Thus arose the idea of its immortality which personal finances. at that stage of development appeared not at all as a consolation but as a fate against which it was no use fighting, and often enough, as among the Greeks, as a positive misfortune. Not religious desire for consolation, but the quandary arising the common universal ignorance of what to do with this soul . . . after the death of the body -led in a general way to the tedious notion of

Karl Marx's 11 theses on Feuerbach, in my adgment, lay the basis for the dogma of the Marxist Church, From this, it will be learned that for Marx the principal attack on our civilization must be on its religions, especially Christianity, udaism and Islam

Therefore Schine's suggestion of working through the churches and the clergy is sound and Senator Jackson's levity was more plebian than

It is only through religion that Marxism can be destroyed; that is, through the acceptance of a mystical God who gave to man moral law. Marx

SHOULD YOU HAVE AN OPERATION?

There was a time when gastrectomy (removal of a part or the whole of the stomach) was considered a masterpiece of surgery and the fact remains that it still is a major surgical procedure, although many physicians and other persons speak of it lightly. It is true that the death rate from this serious operation is comparatively low, that is, from 2 per cent in some extremely good medical centers to as high as 15 per cent in other places. On the other hand, many physicians feel that this rate is still too high and operation should be considered very thoroughly before it is undertaken.

We may divide all duodenal ulcers into two classes, (a) those which are becoming progressively worse, show no signs of returning to normal or have complications: these cases nearly always require surgery. (b) Those patients whose ulcer symptoms are slight or have only a few episodes of pain or whose pain is easily controlled, who do not lose time from work because of their ulcer, who do not have hemorrhages or perforation of drive close to Saipan's chief naval the ulcer. These cases can nearly always be treated base by medicine rather than surgery

In general, the following ulcer patients are crushed a German attempt to lyn Dodgers Rookies 7 to 0 at the likely to require operation:

Patients who have perforated ulcer. 2. Patients who have had an ulcer for more

than five years with bouts of pain. Patients who have heatemesis (vomiting of

4. Those who have a "bleeding ulcer" which shows as blood in the stools.

5. Whose ulcer is on the largest smooth inner

surface of the stomach (gastric ulcer.) 6. Those who have an obstruction of the pylorus where the stomach contents enter into the duodenum on their way into the small intestine) last-

ing for over a week What is the outlook for those of us who have had a gastrectomy, that is, removal of all or part of the stomach to relieve ulcer? It has been found that if the patients are chosen with care, from groups such as these listed above, over 90 per cent should have a normal healthy life. They must remember that they must be moderate in all things as should we all. Some ulcer patients feel that once the ulcer has been removed, they are free to eat or

SLANT ON SNACKS

If anyone tells you that you are suffering from spontaneous hypoglycemia, don't rush for a doctor. Like some other learnedsounding terms, this has a very simple meaning. It is the empty feeling in the pit of the stomach which all have experienced, and for which the accepted remedy is a bite to eat.

Between meals, however, you should choose what particular form of cure you should seek to end this condition. Dr. Jerome W. Conn of the University of Michigan Medical School says that a candy bar or a soft drink is definitely the wrong thing to take. It would be much better to drink a glass of milk, or nibble on meat, eggs or cheese. This is because these are proteins which counteract the excess of insulin in the body that this empty feeling indicates. Candy would increase the flow of insulin. In other words, when hungry, reach for a small sandwich instead of a sweet. The accent is on the small—one cracker or bit of bread it took leave of the body and lived on, there was with meat or cheese. Skim milk is fine with it.

CANAL STILL GOING

America's one canal which has been a continual success has opened its 129th season. This is the old Erie Canal, which because of enlargement and a slight change of route is now the major link in the New York State Barge Canal System, including canals to Oswego and Lake Champlain, Reconstructed in 1918, it is 352 miles long, and by its 35 locks raises shipping 565 feet up from the Hudson River to Lake Erie. Last year it carried about 4,500,000 tons of cargo and has done more business in recent years than in the old days.

Canals were often built in the first part of the 19th century. The railroads killed them off, and few survive outside of the Erie. This runs contrary to European experience. There France, Germany and especially Russia have dug many within recent years, and find them useful.

Perhaps we value speed more than other nations do, and perhaps more than it is worth.

"I dislike telephone calls," said the cynic. "They are always from people who want me to do something for them, and never from people who want to do something for me."

THE KEY WORD

A business leader said this the other day: "We need more frank and basic discussion in defense of private capitalism, not in terms of bath tubs and washing machines, but in terms of sound fundamentals." If that can be achieved on a big enough scale, he continued, civic meetings and social gatherings "no longer would be ready-made platforms for the promulgation of ideas and theories alien to human liberty."

The material fruits of the capitalist system —the bath tubs and washing machines and everything else—are enormously important. They mean that our living standards are the envy of the world. But those fruits are the result of something still more important, which can be described in the single word freedom. The implications of that word need discussion and understanding.

The Russians have been celebrating the 300th anniversary of the annexation of Ukrainia to Russia. Ukrainia, along the Black Sea in Southern Russia, has a wonderfully fertile soil. Its population, originally Cossack, speaks a language similar to Russian but not identical. It has not taken kindly to Russian rule, and in the event of war might welcome invaders.

ONLY CURE

"We could both cure the budget deficit and many of the pains of taxes without lessening functions of government if we could now have a period of self-denial and patience."

That observation has come from a real au-Editors. The American people never were pocketbooks.

At Hyde Park

The Hyde Park Playhouse, new summer stock theatre in Dutchess county, premiered itself and its season Tuesday with Gigi.

The second offering of the 12play season will be Come Back Little Sheba, opening Tuesday. The role of Lola will be taken by Virginia Mattis, seen in last season's His and Hers and featured in Season in the Sun of a few seasons ago, Milton Selzer, not a member of the Playhouse's resident company, will play opposite Miss Mattis in the role of Doc. Mr. Selzer appeared on Broadway in Richard III, Julius Caesar and Arms and the Man. He was also featured in last season's off-Broadway success, Bullfight with Hurd Hatfield.

Think It Through

By EDWARD F. HUTTON

If you were in Congress, do you think you would have a better chance of being re-elected if you were rated "pro-labor" on your voting record?

A study has just been completed on this point, going back eight years and covering the way the House and Senate voted on "anti-labor" bills, so-called, especially the Case bill in 1946, the Taft-Hartley Act ("slave labor law") in 1947, and the Wood Bill in

In the present Senate 78 members have a "pro-labor" or "anti-labor" record. 45 "antilabor" Senators were re-elected as against 24 who were "pro-labor." In the House the results were proportionately the same.

On these three important bills there were six-roll call votes in the two Houses. In only one of the six did a pro-labor vote seem to be more helpful when members came up for reelection.

Of course, in any election, dozens of reasons influence voters other than positions taken on labor bills. For example, Communism, corruption and Korea. One of the most significant facts is that in a number of cases, the "anti-labor" candidate carried "labor" districts, - for example, Taft in Ohio. This is tough for labor leaders to explain.

Think It Through

By EDWARD F. HUTTON

If you were in Congress, do you think you would have a better chance of being re-elected if you were rated "pro-labor" on your voting record?

A study has just been completed on this point, going back eight years and covering the way the House and Senate voted on "anti-labor" bills, so-called, especially the Case bill in 1946, the Taft-Hartley Act ("slave labor law") in 1947, and the Wood Bill in

In the present Senate 78 members have a "pro-labor" or "anti-labor" record. 45 "antilabor" Senators were re-elected as against 24 who were "pro-labor." In the House the results were proportionately the same. On these three important bills there were

six-roll call votes in the two Houses. In only one of the six did a pro-labor vote seem to be more helpful when members came up for re-Mr. Hutton election.

Of course, in any election, dozens of reasons influence voters other than positions taken on labor bills. For example, Communism, corruption and Korea. One of the most significant facts is that in a number of cases, the "anti-labor" candidate carried "labor" districts, - for example, Taft in Ohio. This is tough for labor leaders to explain.

This 'n' That

On Father's Day we think of pop. The poor old coot just cannot stop. His nose is on the grindstone tight; and he must slave both day and night. A mortgage payment's coming due; that graduation dress for Sue; and Jimmie wants to buy a car (an old third-handed Gates-Ajar). And ma's just got to have a wave (her hair would make an angel rave!) But as for pop—his needs are small. He hardly needs a thing at all. His half-soled shoes are nearly through; but pop allows that they will do. His only hat is green with age; but pop's not on the fashion page. And so he plugs a-down the years, with lots of worries, cares, and fears. And keeps the family pot a-boil, with plain, old-fashioned, honest toil. Come on! Let's give old pop a hand! He'd be surprised to beat the band. He's been a work-horse all his days and never thought to ask for praise. So let's all say: "God bless you, dad." And watch his smile-surprised and glad .-Karl Flaster.
